Policy Title: *Communicable Diseases – Employees* Code No. *405.1*

Employees with a communicable disease will be allowed to perform their customary employment duties provided they are able to perform the essential functions of their position and their presence does not create a substantial risk of illness or transmission or other substantial health or safety risk to students or other employees. The term “communicable disease” will mean an infectious or contagious disease spread from person to person, or animal to person, or as defined by law.

Prevention and control of communicable diseases is included in the school District’s Bloodborne Pathogens Exposure Control Plan. The procedures will include scope and application, definitions, exposure control, methods of compliance, universal precautions, vaccination, post-exposure evaluation, follow-up, communication of hazards to employees and record keeping. This plan is reviewed annually by the superintendent or designee and provider of nursing services. All staff members should practice hygienic principles designed to protect themselves and others from infection.

The health risk to immunodepressed employees is determined by their personal physician. The health risk to others in the school district environment from the presence of an employee with a communicable disease is determined on a case-by-case basis by the employee’s personal physician, a physician chosen by the school District, or public health officials. Employees with communicable diseases may be excluded from the school District environment for the period of time that their conditions endanger the health or safety of others or they are physically unable to perform assigned tasks.

Health data of an employee is confidential and will not be disclosed to third parties except as provided by law. Employee medical records are kept in a file separate from their personal file.

An employee who has a communicable disease which creates a substantial risk to others in the school District environment should report the condition to the superintendent or designee. It is the responsibility of the superintendent or designee, in conjunction with the provider of nursing services, to develop administrative regulations stating the procedures for dealing with employees with a communicable disease.

Policy Title: *Meal Charges* Code No. *710.4*

In accordance with state and federal law, the Cedar Falls Community School District adopts the following policy to ensure school district employees, families, and students have a shared understanding of expectations regarding meal charges. The policy seeks to allow students to receive the nutrition they need to stay focused during the school day, prevent the overt identification of students with insufficient funds to pay for school meals, and maintain the financial integrity of the nonprofit school nutrition program.

Payment of Meals

Students have use of a meal account. When the balance reaches \$0.00 a student may charge no more than \$30.00 to this account. When an account reaches this limit, a student shall not be allowed to charge further meals until the negative account balance is paid. Students will not be allowed to charge a la carte items if the account has a balance of \$0.00 or less. Funds may be added to accounts by on-line electronic payment or making a payment at the school office.

Students who qualify for free or reduced meal benefits shall never be denied a reimbursable meal, even if they have accrued a negative balance from previous purchases. Students with outstanding meal charge debt shall be allowed to purchase a meal if the student pays for the meal when it is received.

When a lunch account reached the maximum debt limit (\$30.00), students will be provided an alternative meal beginning the next school day. There will be no charge to the student for an alternate meal. Alternative meal for breakfast will be the same as the reimbursable menu option for the day. Alternative meal for lunch will be a sack lunch consisting of a basic sandwich (bread & cheese or similar) or a single entrée, vegetable or fruit of the food service supervisors choosing and up to 8 oz. of unflavored milk. Alternative meals will be provided until the student(s) account is paid in full.

Employees may use a charge account for meals, but may charge no more than \$30.00 to this account. When an account reaches this limit, an employee shall not be allowed to charge further meals or a la carte items until the negative account balance is paid in full.

Negative Account Balances

The school district will make reasonable efforts to notify families when meal account balances are low. Additionally, the school district will make reasonable efforts to collect unpaid meal charges classified as delinquent debt. The school district will coordinate communications with families to resolve the matter of unpaid charges. Families will be notified of an outstanding negative balance once the negative balance reaches \$0.00. Families will be notified either by the District's electronic message system (e-mail or text), phone call or letters sent home. Negative balances of \$30.00 or more, not paid prior to the end of the month will be turned over to the superintendent or superintendent's designee for collection. Options may include: collection agencies, small claims court, or any other legal method permitted by law.

Communication of the Policy

The policy and supporting information regarding meal charges shall be provided in writing to:

- All households at or before the start of each school year;
- Students and families who transfer into the district, at time of transfer; and
- All staff responsible for enforcing any aspect of the policy.

Records of how and when the policy and supporting information was communicated to households and staff will be retained.

The superintendent or designee may develop an administrative process to implement this policy.

Policy Title:

Student Activities Fund

Code No. **704.5**

Revenue raised by students from student activities shall be deposited immediately after activity and accounted for in the student activities fund. This revenue is the property of and shall be under the financial control of the board. Students may use this revenue for purposes allowable by law and approved by the superintendent or designee. An audit of these accounts shall be made at the same time as the annual audit.

Gate and concession receipts from student activities shall be deposited on the same day of the event. When this is not possible, receipts shall be kept in a locked vault and deposited the next business day. The Superintendent, Director of Business Affairs, or Athletic Director shall be responsible for designating the individual(s) who shall be in charge of collecting, counting, and depositing receipts.

Revenue collected from student contributions, club dues, special activities, admissions to special events, or from other fund-raising activities, will be under the jurisdiction of the board and under the specific control of the superintendent or designee. Revenue will be deposited in a designated depository and will be disbursed and accounted for in accordance with purposes allowable by law and instructions issued by the superintendent or designee.

All funds held in the student activities fund are considered funds of the school district and, as such, are public funds which must be expended only for legitimate public purposes and not for individual private benefit. All student activities funds are to be used to support the student activity program of the school district as provided by law.

Appropriate uses of student activities funds include ordinary and necessary expenses of operating school district-sponsored and district-supervised student cocurricular and extracurricular activities. Items of nominal value may be purchased to recognize qualifying activity groups, upon approval of the school principal. The board authorizes the expenditure of student activities funds for such purposes because they are designed to facilitate student participation and promote student cooperation and performance, assisting in fostering student morale and creating a more productive learning environment.

Inappropriate uses of the student activity fund include, but not limited to cash payments to student members and coaches/sponsors of activity groups, and costs that are not necessary to the cocurricular and extracurricular program.

School employees who have questions regarding whether a particular expenditure is in accordance with this policy should contact the District business office. It shall be the responsibility of the board secretary to keep student activity accounts up-to-date and complete.

Funds remaining in the senior class activity account after graduation or other discontinued accounts shall be transferred to such accounts as designated by the Superintendent or Director of Business Affairs.

Policy Title:

*Objectives for Equal Educational
Opportunities for Students*

Code No. *500*

This series of the board policy manual is devoted to the board's goals and objectives for assisting the students of the school district in obtaining an education. Each student will have an opportunity to obtain an education in compliance with the policies in this series.

It is the goal of the board to develop a healthy social, intellectual, emotional, and physical self-concept in the students enrolled in the school district. Each student attending school will have the opportunity to use it and its education program and services as a means for self-improvement and individual growth. In so doing, the students are expected to conduct themselves in a manner that assures each student the same opportunity.

The board supports the delivery of the education program and services to students free of discrimination on the basis of race, color, creed, sex, marital status, socio-economic status, national origin, religion, sexual orientation, gender identity or disability. This concept of equal educational opportunity serves as a guide for the board and employees in making decisions relating to school district facilities, employment, selection of educational materials, equipment, curriculum, and regulations affecting students.

Board policies, rules and regulations affect students while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district.

Board policy refers to the term "parents" in many of the policies. The term parents for purposes of this policy manual means the legal parents, the legal guardian or custodian of a student, and students who have reached the age of majority or are otherwise considered an adult by law.

Complaint Procedure

A "complaint" constitutes an allegation that these rules as they relate to the district's Equal Educational Opportunity Policy, Title IX, Title VI, the ADA, or Section 504, have been violated. Any student who believes that these rules or laws have been violated shall notify the building principal, supervisor, or the Director of Secondary Education or the Director of Elementary Education. The investigator shall attempt to resolve informally, or at the earliest possible stage, all complaints. A written record will be made and kept. Information received during the investigation shall be kept confidential to the extent possible. Any complainant may be represented at all steps of this procedure by a representative of their choosing. The investigator shall reasonably and promptly commence the investigation upon receipt of the complaint. The investigator shall interview the complainant and may also interview witnesses as-deemed appropriate. Upon completion of the investigation, the investigator shall present a written report to the superintendent or designee.

If the complaint is not satisfactorily resolved, the grievant(s) may request in writing an impartial third-party hearing. The written request shall be filed with the Board Secretary within 30 calendar days of the receipt of the investigator.

The impartial hearing shall be conducted by a hearing officer to be selected by the District and the person(s) filing the complaint. The hearing officer shall be an administrative law judge or another third-party hearing officer that is qualified to hear complaints related to alleged non-compliance with federal and state regulations requiring non-discrimination in educational programs. The impartial third-party hearing officer selected shall set the date and the time of the hearing.

Inquiries by students regarding compliance with equal educational opportunity and affirmative action laws and policies, including but not limited to complaints of discrimination, may also be directed in writing to the Director of the Region VII office of Civil Rights, U.S. Department of Education, City Group Center, 500 West Madison St, Suite 1475, Chicago, IL (312) 730-1560, <http://www.ia.us/government/crc/index.html> or Iowa Dept. of Education, Grimes State Office Bldg., Des Moines, IA. (515) 281-5294. This inquiry or complaint to the federal or state office may be submitted instead of, or in addition to, an inquiry or complaint at the local level.

Policy Title: ***Resident Students*** Code No. ***501.1***

Children who are residents of the school district community will attend the school district without paying tuition.

The residence of a student means the place, abode, or dwelling of the student. Generally, the legal dwelling of minors is the same as their parents. A student may establish a dwelling with someone other than the parents and attend public school in the school district without paying tuition if the primary purpose for residing in the school district is not for the purpose of obtaining a free public education. Further, students who have reached the age of majority and who are still eligible to attend an Iowa secondary school may declare their residence independent of the residence of the parents.

Each case involving the bona fide residence of a student will be decided upon its individual merits by the superintendent or designee.

Policy Title: ***Nonresident Students*** Code No. ***501.2***

Students who are eligible to attend an Iowa public school but who are not legal residents of the school district may be admitted into the school district at the discretion of the superintendent or designee upon application and payment of tuition. The tuition rate is the current per-pupil cost of the school district as computed by the board secretary and as authorized by the Iowa Department of Education.

Resident students whose families move from the school district after the start of a semester and who wish to complete the semester in the school district may be permitted to attend without the payment of tuition at the discretion of the superintendent or designee and approval of the board. Students who plan to open enroll to the nonresident district may complete the school year without approval of the superintendent or designee or board. These students, other than students in grades eleven and twelve, must have the recommendation of the principal.

Students in grades eleven or twelve who are no longer residents of the school district, but were residents in the preceding school year, may continue to attend school until they graduate without the payment of tuition. These students may be required to identify an adult, who resides in the school district, identified for administrative purposes.

Nonresident students who are eligible to attend an Iowa public school and who have evidence they will become legal residents of the school district prior to the state student count date may be allowed to attend without the payment of tuition.

Policy Title: ***Compulsory Attendance*** Code No. ***501.3***

Parents within the school district who have children over age six and under age sixteen by September 15, or who are otherwise of compulsory attendance age, in proper physical and mental condition to attend school, will have the children attend the school district at the attendance center designated by the board. Students will attend school the number of days or hours school is in session in accordance with the school calendar. Exceptions to this policy include children who:

- have completed the requirements for graduation in an accredited school or have obtained a high school equivalency diploma;
- are attending religious services or receiving religious instruction;
- are attending an accredited or probationary accredited private college preparatory school;
- are attending an accredited nonpublic school;
- are receiving Independent Private Instruction or Competent Private Instruction;
- are excused for sufficient reason by any court of record or judge;
- are excused in accordance with the law regarding deaf and blind children; or
- are exempted in accordance with the law regarding religious exemptions.

It is the responsibility of the parent of a child to provide evidence of the child's mental or physical inability to attend school or of the child's qualifications for one of the exceptions listed above.

The principal will investigate the cause for a student's truancy. If the principal is unable to secure the truant student's attendance, the student will be subject to further action in accordance with law, including referral to the county attorney.

The school will participate in mediation if requested by the county attorney. The superintendent or designee will represent the school district in mediation. The school district will monitor the student's compliance with the mediation agreement and will report violations of the mediation agreement to the county attorney.

Policy Title:

Entrance - Admissions

Code No. **501.4**

Children in the school district community will be allowed to enroll in the school district's regular education program beginning at age five. The child must be age five on or prior to September 15 to participate in the school district's kindergarten program. The child must be age six on or prior to September 15 to begin the first grade of the education program.

The board will require evidence of age in the form of a birth certificate or other evidence, and evidence of residency, before the student may enroll in the school district's education program. It is within the discretion of the superintendent or designee to determine what is satisfactory evidence for proof of age and residency.

Prior to enrollment, the child must provide the administration with their health and immunization certificate showing evidence of immunizations required by law, unless immunization is not required for the child's enrollment because such immunization would be injurious to the health or well-being of the child or his or her family or because such immunization conflicts with the child's religion in accordance with law. Failure to provide this information within the time period set by the superintendent or designee is reason for suspension, expulsion or denying admission to the student. A student may be provisionally enrolled if the student has begun the required immunizations and continues to receive the necessary immunizations as rapidly as is medically feasible in accordance with state law.

Policy Title:

Attendance Area Boundaries

In such circumstances, approval may be given by the appropriate administrator for the student to remain temporarily at the original school. Such temporarily extended enrollments should terminate at a logical break point in the school year such as a vacation period, a reporting period or the end of the school year. When such a request is initiated by the parents, any needed transportation shall be provided by the parents except as may be otherwise required by law.

Parents who have good cause as defined by law for failing to meet the respective deadlines or situations which involve harassment or a student's serious health condition may make an open enrollment request in accordance with the procedures in the open enrollment law.

The receiving district will approve open enrollment requests according to the timelines established by law. The parents may withdraw the open enrollment request prior to the start of the school year. The receiving district's superintendent or will notify the parents and sending school district by mail within five days, but not later than June 1, of the school district's action to approve or deny the open enrollment request.

The board will not approve a student's request to allow the receiving district to enter the school district for the purposes of transportation except as may be required by law.

An open enrollment request out of the school district from parents of a special education student shall be reviewed on a case-by-case basis. The determining factors for approval of such an open enrollment request will be whether the special education program available in the receiving school district is appropriate for the student's needs whether the enrollment of the special education student will cause the class size to exceed the maximum allowed. The decision of whether an appropriate program is available will be made by the receiving district, in consultation with the resident district and the appropriate area education agency(ies) before approval is granted. The special education student shall remain in the school district until the final determination is made.

It shall be the responsibility of the superintendent or designee to maintain open enrollment request applications and notice forms. It shall also be the responsibility of the superintendent or designee to develop appropriate office procedures and administrative regulations necessary for open enrollment requests.

Policy Title: *Open Enrollment as a Receiving District* Code No. *501.10*

The school district will participate in open enrollment as a receiving district. As a receiving district, the Board of Education will allow nonresident students, who meet the legal requirements, to open enroll into the school district. The Board of Education shall have complete discretion to determine the attendance center of the students attending the school district under open enrollment.

The Board of Education shall take action on the open enrollment request in accordance with the timelines established by law before the year preceding the first year desired for open enrollment. The superintendent or designee will notify the sending school district and parents within five days of the school district's action, but not later than June 1, to approve or deny the open enrollment request.

Open enrollment requests into the school district will not be approved if insufficient classroom space exists. Insufficient classroom space exists when conditions adversely affect the implementation of the educational philosophy and program of the Board. Insufficient classroom space is determined on a case-by-case basis. In making its determination whether insufficient classroom space exists, the Board of Education may consider several factors, including but not limited to, the nature of the education program, the grade level, the available licensed employees, the instructional method, the physical space, student-teacher ratios, equipment and materials, facilities either being planned or under construction, facilities planned to be closed, current and projected financial condition of the school district, a sharing agreement in force or planned, a bargaining agreement in force, laws or rules governing special education class size, board-adopted school district goals and objectives, and other factors considered relevant by the Board of Education.

Open enrollment requests into the school district will also not be approved for students who have been suspended or expelled by the administration or the board of the school district the student is or was attending until the student has been reinstated into the school district from which the student was suspended or expelled. Once the student is reinstated, the student's open enrollment request will be considered in the same manner as other open enrollment requests provided the required timelines are met.

Open enrollment requests into the school district that, if denied, would result in students from the same nuclear family being enrolled in different school districts, will be given highest priority. The Board of Education, in its discretion, may waive the insufficient classroom space reason for denial for students of the same nuclear family to prevent the division of a nuclear family between two school districts. Other open enrollment requests into the school district shall be considered in the order received by the school district with the first open enrollment request given a higher priority than the second open enrollment request and so forth.

Generally, students in grades 9 through 12 open enrolling into the school district shall not be eligible for participation in interscholastic athletics, at the varsity level, during the first 90 days of open enrollment into the school district. However, such students may be eligible to participate if an exception provided by law is applicable to the student.

Parents of students whose open enrollment requests are approved by the Board of Education shall be responsible for providing transportation to and from the receiving school district without reimbursement unless the parents qualify for transportation assistance as provided by law. The Board of Education will not approve transportation into the sending district except as may be required by law.

An open enrollment request into the school district from parents of a special education student is reviewed on a case-by-case basis. The determining factors for approval of such an open enrollment request will be whether the special education program available in the school district is appropriate for the student's needs and whether the enrollment of the special education student will cause the class size to exceed the maximum allowed. The decision of whether an appropriate program is available will be made by the school district, in consultation with the sending district and the appropriate area education agency(ies) before approval is granted. The special education student shall remain in the sending district until the final determination is made.

The policies of the school district shall apply to students attending the school district under open enrollment.

It shall be the responsibility of the superintendent or designee to develop appropriate office procedures and administrative regulations necessary for open enrollment requests.

Policy Title: *Homeless Children and Youth* Code No. *501.11*

The Board will make reasonable efforts to identify homeless children and youth within the district, encourage their enrollment, and eliminate existing barriers to their receiving education which may exist in district policies or practices in order to provide homeless children and youth with equal access to the same free public education as provided to other children and youth.

Homeless children and youth shall not be separated from the mainstream school environment on the basis of their status as homeless, nor shall they be stigmatized or isolated on the basis of their status as homeless.

The designated coordinator of homeless children and for tracking and monitoring programs and activities for these children is the Senior Coordinator of Student Services. This person shall also serve as the District's liaison for homeless children and youth, and shall be responsible for assisting parents, guardians and unaccompanied youth in enrolling in school and accessing school services, obtaining student records, arranging for immunizations, and coordinating transportation services in accordance with law.

Policy Title: *Student Discipline* Code No. *502.1*

Introduction

An important part of the educational process is helping young people become aware of their rights and the responsibilities that accompany those rights. The school has the duty to create an atmosphere in which self-discipline, as an aspect of responsibility, is approached both positively and productively.

Parents/guardians must be the first to foster self-discipline within the child at home; the school provides an environment in which this training can be developed further, enabling all students to have the right to pursue their own educational needs without disruption by others.

The Cedar Falls Community School Board of Education affirms its support of the school student responsibility and discipline policies, its intent to support school staff that enforces these policies, and its intent to hold school staff accountable for implementing the policies.

Disciplinary action should follow as closely as possible the infraction or behavior that interferes substantially with the educational program and be related directly to the student(s) involved. The teacher is the key to providing disciplinary direction. The principal or designee should be involved only in those cases in which the student's behavior calls for assistance due to safety concerns or the serious or repetitive nature of the behavior.

For those few students who seem unable or unwilling to adjust self-discipline to the common good and who, consequently, continually disrupt the orderly operation of the school, procedures must be established to prevent and correct misconduct. When situations allow, an attempt should be made by teachers, counselors, and administrators, in cooperation with parents/guardians, to help troubled students modify their behavior.

- The Board may, by a majority vote, expel any student from school for a violation of the regulations or rules established by the Board, or when the presence of the student is detrimental to the best interests of the school.
- The Board permits any teacher, principal, or superintendent or designee temporarily to suspend a student, notice of the suspension being at once given in writing to the president of the Board if suspension is out of school.
- When a student is suspended by a teacher, principal, or superintendent or designee, the student may be readmitted by such teacher, principal, or superintendent or designee when the conditions of the suspension have been met, but when excluded or expelled by the Board the student may be readmitted only by the Board or in the manner prescribed by the Board.

Discipline of a special education student will conform to procedures prescribed by applicable law. Conditions governing the discipline of a special education student are contained in this policy.

The goal of school discipline policies should be to ensure the right of all students to a productive educational environment in which they may learn the social skills necessary to develop into mature, responsible young adults, accountable for their own actions.

A hearing shall be attended only by the Board, the Board Secretary, the Superintendent or designee, administrative personnel familiar with the case, the student, the student's parents/guardians, the student's legal counsel or other advisor, and legal counsel for the school board and school district. parent(s)/guardian(s). Notice of such removal from class for the balance of the semester shall be given in writing to the student, parent(s)/guardian(s), and the Director of Secondary Education.

When such removal is ordered, it shall be with the opportunity for proper administrative supervision during the time of such removal.

- E. Out-of-school suspension: A student may be suspended out-of-school for up to 10 consecutive school days by the principal or designee for violation of the regulations or rules established by the board of directors of the school district, including misconduct as defined by the discipline policy, or for conduct detrimental to the best interests of the school district or when the presence of the student will cause substantial interference with the maintenance of the educational environment or in the normal operation of the school or school activity. Notice of suspension shall be given to the student's parent(s)/guardian(s) and the Director of Elementary or Secondary Education. Administrative procedures in Section IV shall be followed.
- F. Manifestation Determination: If a long-term suspension (in-school or out-of-school) is imposed on a student receiving special education services, an immediate meeting of the student's IEP team should be held to ~~assess~~ determine whether the misconduct giving rise to the suspension was manifestation of the student's disability and to assess the effectiveness and appropriateness of the student's placement. In an emergency situation where a child poses an immediate threat to the safety of others, and in the absence of parental consent to the long-term suspension, the school will seek a court order temporarily enjoining the child from attending school.

IV. Administrative Procedures

These procedures are to be followed when a student is placed on probation or suspended or denied privileges or declared ineligible for extracurricular activities, or when a student is removed from a specified class for the balance of the semester.

- A. A student should be told what he/she is accused of doing, orally or in writing, and be given an explanation of the evidence and the rules or policy allegedly violated. The principal or designee shall make an informal investigation, and have discussion with the student. If written notice and explanation is not given, a written memorandum shall be prepared after the discussion, one copy to be placed in the student's file and the other to be mailed to the student's parent(s)/guardian(s).
- B. If the student denies the charges, he/she should be given an opportunity to explain his/her side of the story. There need be no delay between the time of the discussion and explanation to the student and the student's opportunity for response.

The principal or designee may, in his/her discretion, find it advisable to have the person(s) who observed and reported the misconduct present when the accusation and explanation is given; to allow the student to confront such person(s); or to hear the person(s) in behalf of the student. Such proceedings shall be informal. If the student makes a reasonable request that other persons be questioned, the principal or designee should attempt to talk to them if possible.

- C. If the student does not deny the charges, the principal shall explain the sanction to be imposed.
- D. Students whose presences pose a continuing danger to persons or property or an ongoing threat of disrupting the academic process may be immediately removed from school. In such cases, the notice and hearing should follow as soon as practical, not later than three school days after immediate suspension. If the student is immediately removed from school, the principal or designee shall investigate the incident and decide, by the end of the school day, if practicable, whether further disciplinary action is necessary. If an additional suspension is necessary beyond the end of the school day, the principal or designee shall give notice to the student and his/her parent(s)/guardian(s), describing what the student is accused of doing, an explanation of the evidence, the rule or policy allegedly violated, and the time when the student and his/her parent(s)/guardian(s) may be heard as heretofore provided.
- E. When a student is suspended pending exclusion or expulsion, the procedures for exclusion or expulsion in the discipline policy shall be followed. If the principal determines not to recommend exclusion or expulsion, the principal, the student, and the student's parent(s)/guardian(s) shall make suitable arrangements for readmission.
- F. Nothing in this procedure shall be construed to prohibit informal settlement by the parent(s)/guardian(s) by agreement, or waiver of hearing or both.

V. Procedures for Sending a Suspended Student Home During the School Day

When a student is suspended, the principal shall attempt to reach the student's parent(s)/guardian(s) to inform them of the school's action and to request that they come to the school for the child. If the student is entitled to transportation, and if the parent(s)/guardian(s) are unable to come for the child, the school shall provide transportation to the home, provided there is a parent(s)/guardian(s) there to receive the child. If the principal cannot reach the parent(s)/guardian(s), or where no one will be at home to receive the student, the student shall remain on school property until the close of the school day.

Notwithstanding this requirement, the principal may order the student to leave the school premises immediately when faced with mass violations of school rules or where it is not possible to keep the student on school premises and restore order to protect people on the school grounds. However, even in this instance, distance to the home and the age of the individual child may require keeping the student until the parent(s)/guardian(s) can be contacted or other arrangements can be made.

VI. Truancy Procedure

Truancy is a symptom of maladaptive behavior and may require remedial procedures. The following sequential steps outline a guide to be followed. Most cases will be resolved by use of steps A, B, and C. More persistent truancy cases may result in suspension and/or exclusion or expulsion from school, and some may be subject to further action in accordance with law, including referral to the county attorney.

- A. The principal or designee shall counsel with the student.
- B. The parent(s)/guardian(s) shall be informed by telephone and/or mail and be requested to counsel with the student. The school counselor should be notified and shall arrange for ongoing counseling.
- C. The principal or designee shall hold a conference with the student and the student's parent(s)/guardian(s).
- D. The principal may suspend the student or place the student on probation. A conference must be held with the student and the student's parent(s)/guardian(s) before the student is readmitted to school. The principal may require an agreement stating the conditions of readmission which shall be signed by the student and the principal.
- E. The student may be suspended and the principal or designee may arrange for a psychological evaluation and may make whatever other investigation is relevant and recommend appropriate remedial measures. This may mean a referral to the juvenile court or other community agencies.
- F. The principal may recommend exclusion or expulsion of the student and/or recommend further action in accordance with law, including referral to the County Attorney.

VII. Procedures for Handling Student Alcohol, Tobacco/Nicotine, or Controlled Substance Cases

- A. When it is determined that a student has been under the influence of using, possessing, selling or delivering alcohol, tobacco/nicotine, unauthorized controlled substances, or look-alikes on school premises or at school activities the student may be suspended by the building principal. The administrative procedures for suspension shall be applied in such case.
- B. In addition, if it is determined that the student has been under the influence of, using, possessing, selling or delivering unauthorized controlled substances on school premises or at a school-sponsored activity, the student may be recommended for exclusion or expulsion by the building principal.
- C. All instances of alcohol, tobacco/nicotine, or unauthorized controlled substance influence, possession, use, ~~or~~ sale, or delivery shall be reported to the parent(s)/guardian(s), and may be reported to local law enforcement agencies.
- D. Repeated violations involving alcohol and tobacco/nicotine may result in a recommendation to the board of education for exclusion or expulsion.

VIII. Referral of students with substance abuse problems

- A. All school personnel shall report information relative to students with alleged substance abuse problems to the principal.
- B. The principal may refer the matter to the nurse, counselor, student assistant team, or other school personnel.
- C. The principal may refer the case to a medical consultant as permitted by law.
- D. Assistance for substance abuse, rather than punishment, is the first goal of these referrals.

Not with standing anything in these administrative regulations to the contrary.

Policy Title:

Substance Use and Abuse

Code No. *502.2*

A safe and drug-free school environment is recognized by the Cedar Falls Board of Education as essential to prevent serious problems and threats to the academic, social, physical, and emotional welfare of all students. The Cedar Falls Community School District is committed to the establishment of policies and procedures which:

1. increase student awareness of the hazards of substance use/abuse,
2. improve student attitudes and decision-making skills, and
3. provide assistance and referral services for students with substance use/abuse problems.

An atmosphere conducive to the educational excellence of all students is a major responsibility of the District. To successfully meet this obligation, procedures have been developed which are consistent with the laws of the state of Iowa.

The Board prohibits the distribution, dispensing, manufacture, possession, use, or being under the influence of beer, wine, alcohol, tobacco/nicotine, and unauthorized drugs or other controlled substances, or "look alike" substances that appear to be any of the foregoing by students while on school district property or on property within the jurisdiction of the school district; while on school-owned and/or operated school or chartered vehicles; while attending or engaged in school activities; and while away from school grounds if the misconduct will directly affect the good order, efficient management and welfare of the school district. The distribution, dispensing, possession, and use of e-cigarettes, vapor products, and/or any other alternative tobacco/nicotine product are also prohibited, unless with physician authorization.

The board believes such illegal, unauthorized or contraband materials generally cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees, or visitors.

Violation of this policy by students will result in disciplinary action including suspension, exclusion, or expulsion, as stipulated in the board policy governing student discipline. Students participating in extra-curricular activities violating this policy will also be subject to disciplinary action as stipulated in the board policy pertaining to the extra-curricular code of conduct. The use, purchase/sale/distribution or being in possession of cigarettes, tobacco/nicotine or tobacco/nicotine products for those under the age of eighteen, may be reported to the local law enforcement authorities. Possession, use, purchase/sale/distribution, or being under the influence of beer, wine, alcohol and/or of an unauthorized controlled substance may also be reported to the local law enforcement authorities.

Students who violate the terms of this policy may be required to satisfactorily complete a substance abuse assistance or rehabilitation program approved by the school board. If such student fails to satisfactorily complete such a program, the student may be subject to discipline including suspension, exclusion, or expulsion.

The board believes the substance abuse prevention program will include:

- Age-appropriate, developmentally-based drug and alcohol curriculum for students in grades kindergarten through twelve, which address the legal, social, and health consequences of tobacco, drug and alcohol use and which provide information about effective techniques for resisting peer pressure to use tobacco, drugs or alcohol;
- A statement to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful;
- Standards of conduct for students that clearly prohibit, at a minimum, the unlawful possession, use, being under the influence of or distribution of illicit drugs and alcohol by students on school premises or as part of any of its activities;
- A clear statement that disciplinary sanctions, up to and including suspension or expulsion and referral for prosecution, will be imposed on students who violate the policy and a description of those sanctions;
- A statement that students may be required to successfully complete an appropriate rehabilitation program;
- Information about drug and alcohol counseling and rehabilitation and re-entry programs available to students;

It is the responsibility of the superintendent or designee, in conjunction with building principals, to develop administrative regulations regarding this policy.

Policy Title: *Freedom of Expression* Code No. *502.4*
Students are allowed, indeed encouraged, to express their viewpoints and opinions. However, student expression must be appropriate to assure students learn and meet the goals of the school district and the potential audience is not exposed to material that may be harmful or inappropriate for their level of maturity.

Students will be allowed to express their viewpoints and opinions as long as the expression is responsible. The expression shall not, in the judgment of the administration, encourage the breaking of laws or school rules, cause defamation of persons, be obscene, indecent, lewd, vulgar, or profane, or encourage or cause a material and substantial disruption to the educational program.

Further, the expression must be done in a reasonable time, place, and manner that is not disruptive to the orderly and efficient operation of the school district.

Students who violate this policy may be subject to disciplinary measures. Employees shall be responsible for ensuring students' expression is in keeping with this policy. It shall be the responsibility of the superintendent to develop administrative regulations regarding this policy.

Student expression in official school publications, including material produced in the journalism, newspaper, yearbook, or writing classes and distributed to the student body either free or for a fee, are not subject to any prior restraint by school employees or officials except when the material violates this policy. A faculty advisor shall supervise student writers to maintain professional standards of English and journalism and to comply with the restrictions against unlawful speech. The superintendent or designee shall be responsible for developing a student publication code.

Any expression made by students, including student expression in official school publications, is not an expression of official school policy. The school district, the board and the employees or officials are not liable in any civil or criminal action for any student expression made or published by students unless the employees or officials have interfered with or altered the content of the student speech or expression, and in such case the liability, if any, is only to the extent of the interference or alteration of the speech or expression.

Policy Title: *Search and Seizure* Code No. *502.6*

School district property is held in public trust by the board. School district authorities may, without a search warrant, search students, student lockers, personal effects, desks, work areas, or student vehicles or protected student areas based on a reasonable and articulable suspicion that a school district policy, rule, regulation or law has been or is being violated. The search shall be in a manner reasonable in scope to maintain order and discipline in the schools, promote the educational environment, and protect the safety and welfare of students, employees and visitors to the school district facilities. The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, shall not create a protected student area and shall not give rise to an expectation of privacy with respect to the locker, desk, or other facility.

To ensure students are properly maintaining their assigned lockers, the principal of the building may periodically inspect all or a random selection of lockers. Either students or another individual will be present during the inspection of lockers. Student lockers may also be searched at any time without advanced notice.

School authorities may seize any illegal, unauthorized or contraband materials discovered in the search. Such items are not to be possessed by a student while they are on school district property or on property within the jurisdiction of the school district; while on school owned, operated, and/or sponsored school or chartered buses; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Possession of such items will be grounds for disciplinary action including suspension, exclusion, or expulsion and may be reported to local law enforcement officials. The board believes that illegal, unauthorized or contraband materials may cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees, or visitors on the school district premises or property within the jurisdiction of the school district.

It shall be the responsibility of the superintendent or designee, in conjunction with the principals, to develop administrative regulations regarding this policy.

SEARCH AND SEIZURE REGULATION

I. Searches, in general.

- A. Reasonable and Articulable Suspicion: A search of a student or protected student area will be justified when there are reasonable grounds for the suspicion that the search will turn up evidence that the student has violated or is violating the law or school district policy, rules, or regulations affecting school order.

Reasonable suspicion may be formed by considering factors such as the following:

- (1) eyewitness observations by employees;
- (2) information received from reliable sources;
- (3) suspicious behavior by the student; or,
- (4) the student's past history and school record although this factor alone is not sufficient to provide the basis for reasonable suspicion.

- B. Reasonable Scope: A search will be permissible in its scope or intrusiveness when the measures adopted are reasonably related to the circumstances which gave rise to the need for the search and the objectives of the search. Reasonableness of scope or intrusiveness may be determined based on factors such as the following:

- (1) the age of the student;
- (2) the gender of the student;
- (3) the nature of the infraction;
- (4) the emergency requiring the search without delay; and
- (5) the objectives to be accomplished by the search.

II. Types of Searches

A. Personal Searches

1. A student's person and/or personal effects (e.g., purse, backpack, etc.) may be searched when a school official has reasonable suspicion to believe the student is in possession of illegal or contraband items, or the search will otherwise turn up evidence that the student is violating or has violated school district policies, rules, regulations or the law affecting school order.
2. Personally intrusive searches will require more compelling circumstances to be considered reasonable.
 - (a) Pat-Down Search: If a pat-down search or a search of a student's garments (such as jackets, socks, pockets, etc.) is conducted, it will be conducted in private by a school official of the same sex as the student and with another adult witness of the same sex present, when feasible.
 - (b) A more intrusive search, short of a strip search, of the student's person, handbags, book bags, etc., is permissible in emergency situations when the health and safety of students, employees, or visitors are threatened. Such a search may only be conducted in private by a school official of the same sex as the student, with an adult of the same sex present unless the health or safety of students will be endangered by the delay which may be caused by following these procedures.
 - (c) Strip searches and body cavity searches, or the use of a drug-sniffing animal to search a student's body, are prohibited.
 - (d) If a student is not or will not be present at the time of a search of a protected student area is conducted, the student shall be informed of the search either prior to or as soon as is reasonably practicable after the search is conducted.

B. Locker and Desk Inspections

Although school lockers and desks are temporarily assigned to individual students as a courtesy, they remain the property of the school district at all times and do not create any protected student area. The school district has a reasonable and valid interest in insuring the lockers and desks are properly maintained. For this reason, lockers and desks are subject to unannounced inspections and students have no legitimate expectations of privacy in the locker or desk, even if the student provides a lock for it. Periodic inspections of all or a random selection of lockers or desks may be conducted by school officials in the presence of the student or another individual. Any contraband discovered during such inspections will be confiscated by school officials and may be turned over to law enforcement officials.

A student's locker or desk or the contents of a student's locker or desk (coat, backpack, purse, etc.) may be searched when a school official has reasonable and articulable suspicion that the contents contains illegal or contraband items or evidence of a violation of law or school policy or rule. Such searches should be conducted in the presence of another adult witness when feasible.

C. Automobile Searches

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of the student parking lots. The interior of a student's automobile on the school premises may be searched if the school official has reasonable and articulable suspicion to believe that illegal, unauthorized or contraband items are contained inside.

Policy Title: *Security Camera Supervision* Code No. *502.7*

The Board supports the use of security cameras as a means to monitor and maintain a safe environment for students and employees, as deemed necessary by administration. The contents of a videotape or its digital equivalent may be used as evidence in a student disciplinary proceeding.

The content of the video recordings may be a student record subject to board policy and administrative regulations regarding confidential student records. In such case, only those persons authorized by law, including those persons with a legitimate educational purpose may view the recordings. In most instances, those individuals with a legitimate educational purpose may be the superintendent or designee, building principal, transportation director, bus driver and special education staffing team. A parent may view the video recordings of their child to the extent provided by law.

A video recorded during a school-sponsored trip, such as an athletic event, may also be accessible to the sponsor or coach of the activity. If the content of the video recording becomes the subject of a student disciplinary proceeding, it will be treated like other evidence in the proceedings.

Students are prohibited from tampering with the security cameras. Students found in violation of this regulation shall be disciplined in accordance with the District's discipline policy, will be reported to the police, and shall reimburse the District for any repairs or replacement necessary as a result of the incident.

Policy Title: *Student Activity Program* Code No. *503.1*

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and abilities in the students during their school years and for their lifetime.

Students will have an opportunity to participate in a school activity unless the activity is not offered, the activity is an intramural or interscholastic athletic activity, or the student cannot participate for disciplinary reasons. If the activity is an intramural or interscholastic athletic activity, students of the opposite sex will have a comparable opportunity for participation. Comparable opportunity does not guarantee boys and girls will be allowed to play on each other's teams when there are athletic activities available that will allow both boys and girls to reap the benefits of school activities, which are the promotion of additional interests and abilities in the students.

Student activity events must be approved by the superintendent or designee. All out-of-state travel requires prior approval by the superintendent or designee. The events must not disrupt the education program or other district operations.

A student in grades 9-12 who participates in a sport sponsored by the Cedar Falls Community School District may participate in that sport as an individual or member of a team in an outside school event during the same season, with permission of the building activities council. Such outside participation shall not conflict with the school sponsored athletic activity. A student who participates in a sport sponsored by an organization other than the district without obtaining permission from the activity director shall be ineligible to participate on a school sponsored team in that sport for a period of twenty percent of the contests. This number shall be determined by multiplying the total number of contests in that sport by twenty percent. In the case of a fractional number, the total contests that a student shall be withheld from will be determined by rounding to the nearest whole number. A student will be suspended for a minimum of one contest. If there is not a sufficient number of contests remaining in the scheduled season to fulfill the terms of a suspension, the suspension balance will be carried over to the tournament series and to the next season of that sport in which the student participates.

It shall be the responsibility of the superintendent or designee to develop administrative regulations for each school activity. These regulations shall include, but not be limited to, when physical examinations will be required, how and when parents will be informed about the risk of the activity, forms and procedures for a waiver of liability from the parent and student in certain activities, and evidence of health insurance if any. Students wanting to participate in school activities must meet the requirements set out by the school district for participation in the activity and those identified in policy #503.4.

Policy Title: *Conduct Code for Extracurricular Activities* Code No. *503.4*

Extracurricular activities, for purposes of this policy, include all extracurricular athletics, cheerleading, dance team, clubs, extracurricular fine arts performances, student government, and any other activity or group that participates in contests, competitions, or community service projects on behalf of or as a more visible representative of the school district.

It is a privilege to participate in extracurricular activities at the Cedar Falls Community Schools. Students participating in these activities serve as more visible ambassadors of the school and role models to other students, and must adhere to high standards of conduct. When students violate these high standards, the District may withdraw the privilege to participate in extracurricular activities. Students participating in extracurricular activities are expected to abide by all rules of this policy 365 days a year, 24 hours a day, in and out of the specific extracurricular season and on or off school grounds.

The activity director may declare a student ineligible whose conduct is contrary to and in violation of the rules and regulations established and made known by the activity director or whose conduct is contrary to or in violation of this conduct policy or other board policy.

Item 1: To retain eligibility for participation in the Cedar Falls Community Schools extracurricular activities, students must conduct themselves as good citizens both in and out of school. Any student who is found to have violated the schools conduct code for extracurricular activities will be deemed ineligible for a period of time as described below. A student may lose eligibility under the conduct code for any of the following behaviors, including, but not limited to:

- Possession, use, distribution, or purchase of tobacco products, regardless of the students age;
- Possession, use, distribution, or purchase of e-cigarettes, vapor products, or alternative nicotine products, unless with physician permission regardless of the student's age;
- Possession, use, distribution, being under the influence, or the sale or purchase of alcoholic beverages;
- Being in a car or in attendance at a function or party where alcohol or other drugs are being consumed illegally by minors;
- Possession, use, distribution, being under the influence, or purchase of illegal drugs and/or drug paraphernalia, and the unauthorized possession, use, distribution, being under the influence of, or purchase of otherwise lawful drugs, and the possession, use, distribution, being under the influence of, or purchase of lawful items for the purpose of achieving mind-altering effects;
- Engaging in any act that would be grounds for arrest or citation in the criminal or juvenile court system, excluding minor traffic offenses, regardless of whether the student was cited, arrested, convicted or adjudicated for the act(s);
- Inappropriate conduct such as fighting, insubordination, bullying, hazing or harassment of others, or unauthorized possession of weapons.

Length of Suspension:

- 1st Offense - Students shall be suspended for a minimum of twenty percent of all activities in which a student is participating at the time of the violation.
- 2nd Offense (within one year of the date of the first offense) – A student will be suspended for a minimum of forty percent of all activities in which the student is participating at the time of the violation.
- 3rd Offense (within one year of the date of the previous offense) – A student will be suspended from all activities for a period of one calendar year from the date of the last violation.

This number of events/games missed shall be determined by multiplying the total number of events in each activity for a period by twenty percent or forty percent for a second offense. In the case of a fractional number, the total events that a student shall be withheld from will be determined by rounding to the nearest whole number. A student will be suspended for a minimum of one extracurricular event. If there is not a sufficient number for contests or performances remaining in the scheduled season to fulfill the terms of a suspension, or if the student is not currently participating in an extra-curricular activity, the suspension balance will be carried over to the tournament series and/or to the next season in which the student participates. A season is defined as commencing with the first day of practice, concluding with the last contest or performance. The penalty shall be immediate. To resume eligibility, it is mandatory that the student obtain and follow the recommendations of the school approved evaluation procedures.

For the first infraction, the voluntary admission of an infraction of the rules involving alcoholic beverages, tobacco or controlled substance will not result in a suspension if the coach/sponsor/administrator is notified within 72 hours of the violation. This provision may be used one time throughout the student's junior high school (7-8) and one time throughout the student's high school (9-12) career by any student. This voluntary admission may not be used by a student if the infraction is already known to the school or law enforcement agencies. In addition, it is mandatory that the student obtain and follow recommendations of the school approved evaluation procedures before that student regains eligibility. The purpose of this provision is to allow a student to seek help.

- Item 2: The Administration may also have at their discretion the ability to impose consequences of greater magnitude due to the severity of the violation. These violations include, but are not limited to the sale or use of an illegal drug during an activity, at school or away; a student who is arrested for or charged with a felony or charged with an act that would constitute a felony if committed by an adult.
- Item 3: Students cannot attempt to evade the intent of the Code of Conduct Rule by joining a new activity specifically to allow their suspension days to run its course. If a student athlete participates in an activity he/she had not been previously involved with, he/she must complete the season of the new activity in good standing in order for the suspension days to count.
- Item 4: A student must be present for three consecutive periods of a school day in order to perform at an activity that day, unless otherwise determined by the director of the activity and/or the building administrator.
- Item 5: Students must follow the IHSAA and IGHSAA academic requirements.
- Item 6: A student who is suspended from school due to disciplinary reasons according to Board Policy shall not participate in extracurricular practices or events, or attend Cedar Falls High School activities (on or off campus), during the suspension period. Additionally, a student who is expelled or excluded from school for an extended period of time may be ineligible to participate in activities for the remainder of the school year.
- Item 7: The director of extracurricular activities will establish and make known rules of conduct and regulations for the students participating in the activity. Those rules of conduct shall be approved by the activities director or building principal. Said rules shall be in writing and delivered to each student and parent in the particular activity at the beginning of the season. Additional rules of conduct may be established and will be made known at the beginning of the season. Students are expected to abide by the rules as a condition of their continued participation in extracurricular activities.

Appeal Procedure

Suspension of a student from an extracurricular activity shall be the decision of the activities director within the parameters of this guide, and after the activities director has informally investigated the allegation of misconduct, and has given the student notice of the allegation and the opportunity to respond. If the activities director determined that a violation of the activity code did occur, said student may be declared ineligible for extracurricular activities.

A student may contest the declaration of ineligibility by the activities director orally or in writing to the building principal within three school days from notified of the declaration of ineligibility. The building principal shall make a ruling within two school days of receipt of notice of objection.

In the event the ruling of the building principal is adverse to the student, he or she may appeal the ruling in writing to the appropriate building activities council. The appeal shall be no later than three school days from receipt of decision of the building principal. The student will not be allowed to participate in any contest or performance during the appeal process, but may be allowed to participate in practice sessions. Said notice shall be delivered to the chairman of the appropriate building activities council. Any member of the building activities council who has been involved in prior matters regarding the ineligibility at issue may be disqualified from serving on the building activities council with regard to that matter. The building activities council shall hold a hearing within seven school days of the receipt of notice of appeal and make a ruling within two school days of the conclusion of the hearing.

A decision of the building activities council adverse to the student may be appealed by the student in writing to the superintendent or designee. The appeal shall be within seven school days of receipt of decision from the building activities council and the superintendent or designee will make a ruling within two school days of receiving the appeal.

In the event of a decision by the superintendent or designee that is adverse to the student, the ineligibility may be appealed to the Board of Education. However, it is with the discretion of the Board to determine whether to hear the appeal. The appeal shall be made in writing within seven school days of receipt of the decision from the superintendent or designee. If the Board determines not to hear the appeal, the decision by the superintendent or designee shall be final.

Policy Title: ***Ninth Grade Participation*** Code No. **503.5**

Junior high school students will not be permitted to participate in high school activities with the exceptions of:
(a) ninth grade students will be permitted to take part in those sports not offered at the ninth grade in the junior high schools, and
(b) ninth grade students will be permitted to participate in state solo and ensemble music contests.

Further exceptions to this policy must have the approval of the ninth grade student's coach/supervisor, building athletic/activities director, and building principal.

If a request is made and denied and the coach/supervisor would desire a reconsideration, it will be the responsibility of the director of secondary education to establish a time and location for the meeting. The meeting will include the personnel listed in the above paragraph.

Once that time period of ineligibility has been completed, the student is then immediately eligible for interscholastic competition at Cedar Falls Community Schools as far as any Good Conduct Rule is concerned. Other restrictions may apply to the student's eligibility as provided by law.

Policy Title: ***Dress*** Code No. **504.1**

The board believes inappropriate student appearance causes material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees and visitors on school property or on property within the jurisdiction of the school district. Therefore, students are expected to adhere to standards of cleanliness and dress that are compatible with the requirements of a good learning environment.

As determined by the principal, students must dress in a responsible manner. Health and safety factors are considerations in acceptable attire. No attire will be permitted that disrupts the learning process in school. Clothing or other apparel promoting products illegal for use by minors and clothing displaying obscene material, profanity, or reference to prohibited conduct are disallowed. Additional, specific guidelines may be imposed at the building level.

When, in the judgment of the principal, a student's appearance or mode of dress disrupts the educational process or constitutes a threat to health or safety, the student may be required to make modifications.

Policy Title: *Communicable Diseases – Students* Code No. **504.2**

The term "communicable disease" will mean an infectious or contagious disease spread from person to person, or animal to person, or as defined by law. Parents of a student with a communicable disease should inform the school nurse about the communicable disease so the appropriate measures may be taken. Prevention and control of communicable diseases is included in the school district's bloodborne pathogens exposure control plan. The procedures will include scope and application, definitions, exposure control, methods of compliance, universal precautions, vaccination, post-exposure evaluation, follow-up, communication of hazards to employees and record keeping. This plan is reviewed annually by the superintendent and school nurse.

The health risk to immunodepressed students is determined by their personal physician. The health risk to others in the school district environment from the presence of a student with a communicable disease is determined on a case-by-case basis by the student's personal physician, a physician chosen by the school district and/or public health officials.

It is the responsibility of the superintendent or designee, in conjunction with the provider of nursing services, to develop administrative regulations stating the procedures for dealing with students with a communicable disease.

Policy Title: *Anti-Bullying/Harassment: Students* Code No. *504.5RI*

ANTI-BULLYING/HARASSMENT INVESTIGATION PROCEDURES

Students who feel that they have been bullied or harassed should:

- Communicate to the person who allegedly harassed or bullied that the individual expects the behavior to stop, if the individual is comfortable doing so. If the individual wants assistance communicating with the person who allegedly harassed or bullied, the individual should ask a teacher, counselor or principal to help.
- If the bullying or harassment does not stop, or the individual does not feel comfortable confronting the person who allegedly harassed or bullied, the individual should communicate to a teacher, counselor or principal:
 - what, when and where it happened,
 - who was involved,
 - exactly what was said or what was done,
 - witnesses,
 - what the person said or did, either at the time or later,
 - how the person felt, and
 - how the person who allegedly harassed or bullied responded.

INCIDENT INVESTIGATION & RESOLUTION PROCEDURE

Once an incident of bullying or harassment has been communicated to a teacher, counselor, or principal; OR a written notice of a complaint has been received, an investigation process will begin. The Directors of Elementary and Secondary Education or designee are charged with ensuring the appropriate investigation procedures are in place and carried out and will begin the investigation process for all complaints received by the Central Administration Office. Information received during the investigation will be kept confidential to the extent reasonably possible.

The person who first received knowledge of the alleged bullying or harassment will either begin the investigation or document the incident for the building principal or designee, who will then conduct a preliminary inquiry. If inquiry indicates bullying or harassment likely occurred, and cannot be resolved at the building level, it may be transitioned to the District office for investigation.

The superintendent or designee will begin the investigation and intervention reasonably and promptly by completing and documenting all steps in the district's process. As part of this process, the investigator will interview the targeted student and the person doing the alleged harassing or bullying. The investigator may ask for documentation of the behavior, including but not limited to letters, computer printouts, electronic files, or pictures. The investigator may also interview witnesses or ask for written statements as deemed appropriate. District employees, students and volunteers shall fully and fairly cooperate in the investigation.

Information about the incident will be entered in the district's computer system, whether founded or unfounded, using a district-approved form and process which complies with the Department of Education's reporting procedures. The investigator will make a determination as to if bullying or harassment is founded along with any conclusions and next steps, which may include disciplinary action, in the form of a written report. The building principal will be notified of all bullying or harassment incidents, whether founded or unfounded, by the investigator. Following receipt of the investigator's report, the principal may investigate further, if deemed necessary, and make a determination of any appropriate additional steps which may include discipline. All founded cases of bullying or harassment will result in notification of both the targeted student and the harasser's parents or guardians (if a student).

If the investigator has a conflict of interest, the alternate investigator shall investigate.

Other, more specific procedures may apply to cases involving discrimination, harassment, or bullying based on sex as proved by applicable laws.

Policy Title: *Interviews of Students by Outside Agencies* Code No. *505.1*

Generally, students may not be interviewed during the school day by persons other than parents and school district officials and employees.

Requests from law enforcement officers and from persons other than parents, school district officials, and employees to interview students are made through the principal's office. Upon receiving a request, it is the responsibility of the principal to determine whether the request will be granted. Generally, prior to granting a request, the principal will attempt to contact the parents to inform them of the request and to ask them to be present.

If a child abuse investigator wishes to interview a student, the principal will defer to the investigator's judgment as to whether the student should be interviewed independently from the student's parents, whether the school is the most appropriate setting for the interview, and who will be present during the interview.

Students will not be taken from school without the consent of the principal and without proper authority.

Policy Title: *Student Organizations* Code No. *505.2*

Secondary school student-initiated, noncurriculum-related groups and student curriculum-related groups, upon receiving permission from the principal, may use school facilities for group meetings during non-instructional time.

Non-instructional time will mean any time before the first period of the day and after the last period of the day in which any student attends class. Meetings will not interfere with the orderly conduct of the education program or other school district operations. It is within the discretion of the principal to determine whether the meetings will interfere with the orderly conduct of the education program or other school district operations. Activities relating to and part of the education program will have priority over the activities of another organization.

Curriculum-Related Organizations

It will also be the responsibility of the principal to determine whether a student group is curriculum-related. One or more of the following questions will be answered affirmatively if the group is curriculum-related:

- Is the subject matter of the group actually taught in a regularly offered course?
- Will the subject matter of the group soon be taught in a regularly offered course?
- Does the subject matter of the group concern the body of courses as a whole?
- Is participation in the group required for a particular course?
- Does participation in the group result in academic credit?

Secondary school curriculum-related student organizations may use the school district facilities for meetings and other purposes before and after the instructional school day. Employees are assigned to monitor approved meetings and may interact with curriculum-related organizations.

Noncurriculum-Related Organizations

Student-initiated, noncurriculum-related organizations are provided access to meeting space and school district facilities before and after the instructional school day.

Only students may attend and participate in meetings of noncurriculum-related groups. Such attendance is strictly voluntary and student-initiated. As a means of determining whether a student's attendance is voluntary, the principal may require parental consent for the student to attend the meetings.

Employees will be assigned to monitor approved meetings; however, employees will not participate in the meeting or assist in planning, criticizing, or encouraging attendance. Only students may be involved in and attend the noncurriculum group's meetings.

It is the responsibility of the superintendent or designee, in conjunction with the principal, to develop administrative regulations regarding this policy.

Policy Title:

Student Performances

Code No. *505.4*

Students, as part of the education program, may participate in contests or other public and private events approved by the superintendent or designee that will be of benefit to the student and the education program. Performance at such events is a privilege.

Students, who perform at such events, serve as ambassadors of the school district and must conduct themselves in the same manner as required in the regular school day. Students who fail to abide by this policy and the administrative regulations supporting it may be subject to disciplinary measures.

Students will be allowed to perform in these events only with proper permission and supervision and when the events do not disrupt the education program or other school district operations. The events must be approved by the superintendent or designee, unless it involves unusual travel and expense, in which case the board must approve of the performance.

It is the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy. In developing the administrative regulations, these guidelines should be followed:

- Performances by student groups below the high school level should be allowed on a very limited basis.
- All groups of students should have an opportunity to participate.
- Extensive travel by one group of students should be discouraged.

It is within the discretion of the superintendent or designee to determine whether the event will benefit the education program and the participating students. Contests or other performances by students unapproved by the superintendent are the responsibility of the parent and the student.

Policy Title: *Testing and Evaluation Program*

Code No. *505.5*

A comprehensive testing program is established and maintained to evaluate the education program of the school district and to assist in providing guidance or counseling services to students and their families.

No student is required, as part of any program funded by the United States Department of Education, to submit, without prior written consent from the student's parent or guardian (or the student if the student is not a minor), to a survey, analysis or evaluation that reveals information concerning:

- political affiliations or beliefs of the student or student's parent or guardian;
- mental or psychological problems of the student or the student's family;
- sex behavior or attitudes;
- illegal, anti-social, self-incriminating or demeaning behavior;
- critical appraisals of other individuals with whom respondents have close family relationships;
- legally recognized, privileged and analogous relationships, such as those of lawyers, physicians and ministers;
- religious practices, affiliations or beliefs of the student or student's parent/guardian; or
- income, (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

It is the responsibility of the superintendent or designee, in conjunction with the principal, to develop administrative regulations regarding this policy.

It is the responsibility of the board to review and approve the evaluation and testing program.

Policy Title: *Administration of Medication to Students*

Code No. *506.1*

Some students may need prescription and non-prescription medication to participate in their educational program. It is the responsibility of the parent or legal guardian to ensure that the school receives properly authorized medication. Medication shall be administered and accessed only by the school nurse or, in the nurse's absence, by a person who has successfully completed the Iowa School Medication Management course. A medication administration course and periodic update shall be overseen by a registered nurse, and a record of course completion shall be kept on file at the agency.

Medication shall not be administered without written authorization from the parent or legal guardian. Written authorization shall include the student's name, date of request, medication name, administration instructions, and authorizing signature. The medication must be in the original labeled container either as dispensed by the pharmacist or as sold by the manufacturer. A record of the administration of medication shall be kept for each student receiving medication and shall include:

- Date
- Student's name
- Medication
- Medication dosage
- Administration time
- Administration method
- Signature and title of person administering medication
- Any unusual circumstances, actions or omissions

By law, the school district shall permit students with asthma or other airway constricting disease or students with risk of anaphylaxis to self-administer their medication or use an epinephrine auto-injector, as the case may be, upon authorization of their parent or guardian and prescribing licensed health care professional in writing. Students may self-administer other medications with written authorization of the student's parent or legal guardian and physician upon a showing of competency in accordance with law. These authorizations will be on file in the nurse's office and renewed annually. Pursuant to state law, the school district and its employees are to incur no liability, except for gross negligence, as a result of an injury arising from self-administration of medication or use of an epinephrine auto-injector by the student. The parent or legal guardian of the student shall sign a statement acknowledging that the school district is to incur no liability, except for gross negligence, as a result of self-administration of medication or use of an epinephrine auto-injector by the student as established by Iowa Code Section 280.16. The school district and its employees acting reasonably and in good faith shall incur no liability for any improper use of medication or for supervising, monitoring, or interfering with a student's self-administration of medication.

Medication shall be stored in a secured area unless alternate provision is documented. The parent or legal guardian is responsible for providing safe delivery of medication and equipment to and from school and to pick up remaining medication and equipment at the end of the school year or whenever it is no longer needed at school. Emergency protocols for medication-related reactions and uncommon medication administration situations shall be posted in the area where medications are administered. Medication information shall be confidential information not subject to disclosure except as provided by law.

The superintendent or designee shall be responsible, in conjunction with the school nurse, for developing rules and regulations governing the administration of medication, prescription and non-prescription, to students. Annually, each student shall be provided with the requirements for administration of medication at school. The parent/guardian must notify school officials immediately if any changes occur in the administration of medication during the school year.

Policy Title: *Student Special Health Services* Code No. **506.2**

The board recognizes that some special education students need special health services during the school day. These students will receive special health services in conjunction with their individualized education program and applicable by law.

The superintendent or designee, in conjunction with licensed health personnel, will establish administrative regulations for the implementation of this policy.

Policy Title: *Student Records Access* Code No. **506.3**

The board recognizes the importance of maintaining student records and preserving their confidentiality. Student records containing personally identifiable information are kept confidential at collection, storage, disclosure and destruction stages in accordance with law. The board secretary is the custodian of student records. Student records may be maintained in the central administration office or administrative office of the student's attendance center.

Parents/legal guardian and eligible students will have access to the student's records during the regular business hours of the school district. An eligible student is a student who has reached eighteen years of age. Parents/legal guardian of an eligible student is provided access to the student records only with the written permission of the eligible student unless the eligible student is defined as a dependent by the Internal Revenue Code. In that case, the parents/legal guardian may be provided access without the written permission of the student. A representative of the parent/legal guardian or eligible student, who has received written permission from the parents/legal guardian or eligible student, may inspect and review a special education student's records. Parents/legal guardian, other than parents of an eligible student, may be denied access to a student's records if the school district has a court order stating such or when the district has been advised under the appropriate laws that the parents/legal guardian may not access the student records.

A student record may contain information on more than one student. Parents/legal guardian will have the right to access the information relating to their student or to be informed of the information. Eligible students will also have the right to access the information relating to themselves or be informed of the information.

Parents/legal guardians and eligible students will have a right to access the student's records upon request without unnecessary delay and in no instance more than 45 calendar days after the request is made. Parents/legal guardian, an eligible student or an authorized representative of the parents will have the right to access the student's records prior to an Individualized Education Program (IEP) meeting or hearing.

Copies of student records will be provided if failure to do so would effectively prevent the parents/legal guardian or student from exercising the right to access the student records. Fees for copies of the records are waived if it would prevent the parents or student from accessing the records. A fee may not be charged to search or retrieve information from student records.

Upon the request of parents/legal guardian or an eligible student, the school district will provide an explanation and interpretation of the student records and a list of the types and locations of education records collected, maintained or used by the school district.

If the parents/legal guardian or an eligible student believes the information in the student records is inaccurate, misleading or violates the privacy rights of the student, the parents/legal guardian or an eligible student may request that the school district amend the student records. The school district will decide whether to amend the student records within a reasonable time after receipt of the request. If the school district determines an amendment is made to the student record, the school district will make the amendment and inform the parents/legal guardian or the eligible student of the decision in writing.

If the school district determines that amendment of the student's record is not appropriate, it will inform the parents/legal guardian or the eligible student of their right to a hearing before the hearing officer provided by the school district. If the parents/legal guardian or the eligible student's request to amend the student record is further denied following the hearing, the parents/legal guardian or the eligible student are informed that they have a right to place an explanatory letter in the student record commenting on the school district's decision or setting forth the reasoning for disagreeing with the school district. Additions to the student's records will become a part of the student record and be maintained like other student records. If the school district discloses the student records, the explanation by the parents/legal guardian or eligible student will also be disclosed.

In general, the school district may only disclose personally identifiable information from a student's education record with the signed and dated written consent of the parents or eligible student. However, student records may be disclosed in limited circumstances without parental/legal guardian or eligible student's written permission. This disclosure may be made to the following individuals or under the following circumstances:

- to school officials within the school district whom the superintendent or designee has determined to have a legitimate educational interest, including, but not limited to, board members, employees, school attorney, auditor, health professionals, and individuals serving on official school committees;
- to officials of another school district in which the student wishes to enroll or is already enrolled, provided the school district notifies the parents/legal guardian or eligible student the student records are being sent and the parents/legal guardian or eligible student have an opportunity to receive a copy of the records and challenge the contents of the records (unless disclosure is initiated by the parents/legal guardians or eligible student, or the annual notification includes a provision that records will automatically be transferred in such cases);
- to the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education or state and local educational authorities;
- in connection with financial aid for which the student has applied or which the student has received if the information is necessary to receive the financial aid;
- to organizations conducting educational studies and the study does not release personally identifiable information;
- to accrediting organizations;
- to parents of a dependent student as defined in the Internal Revenue Code;
- to comply with a court order or lawfully issued subpoena;
- consistent with an interagency agreement between the school district and juvenile justice agencies;
- in connection with a health or safety emergency;
- as directory information; or
- as otherwise permitted by law.

STUDENT RECORDS ACCESS

The school district may share any information with the agencies contained in a student's permanent record, which is directly related to the juvenile justice system's ability to effectively serve the student. Prior to adjudication, information contained in the permanent record may be disclosed by the school district to the parties without parental/legal guardian consent or court order. Information contained in a student's permanent record may be disclosed by the school district to the agencies after adjudication only with parental/legal guardian consent or a court order. Information shared pursuant to the agreement is used solely for determining the programs and services appropriate to the needs of the student or student's family or coordinating the delivery of programs and services to the student or student's family. Information shared under the agreement is not admissible in any court proceedings, which take place prior to a disposition hearing, unless written consent is obtained from a student's parent, guardian, or legal or actual custodian.

Confidential information shared between the school district and the agencies will remain confidential and will not be shared with any other person, unless otherwise provided by law. The school district may discontinue information sharing with an agency if the school district determines that the agency has violated the intent or letter of the agreement.

Agencies will contact the principal of the attendance center where the student is currently or was enrolled. The principal will then forward copies of the records within 10 business days of the request.

The school district will provide training or instruction to employees about parents/legal guardian and eligible students' rights under this policy. Employees will also be informed about the procedures for carrying out this policy.

It is the responsibility of the superintendent or designee to annually notify parents/legal guardian and eligible students of their right to inspect and review the student's records, seek amendment of the student's records, and consent to disclosures of information from the student's records except as may otherwise be permitted by law. The notice is given in a parents/legal guardian or eligible student's native language.

The notice will include a statement that the parents have a right to file a complaint alleging the school district failed to comply with this policy. Complaints are forwarded to Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, Washington, DC. 20202-4605

USE OF STUDENT RECORDS REGULATION

Student records are all official records, files, and data directly related to students, including all material incorporated into each student's cumulative record folder and intended for school use or to be available to parties outside the school or school system specifically including, but not necessarily limited to: dates of attendance; academic work completed; level of achievement (grades, standardized test scores); attendance data; scores on standardized intelligence, aptitude, and psychological tests; interest inventory results; health data; family background information; teacher or counselor ratings and observations; and verified reports of serious or recurrent behavior patterns.

The intent of this regulation is to establish procedures for granting requests for access to the student's records, use of the data, and procedures for its transmittal within 45 calendar days.

A. Access to Records

1. The parent or legal guardian of a student will have access to these records upon written request to the board secretary.

The parent or legal guardian will, upon written request to the board secretary, have the opportunity to receive an interpretation of the records, have the right to question the data, request amendment of the records and a hearing pursuant to the procedures outlined below, and, if a difference of opinion is noted following the hearing, is permitted to file a letter in the cumulative folder stating the dissenting person's position.

A student, eighteen years or older, has the right to determine who, outside the school system, has access to the records. Parents/legal guardian of students who are 18 years or older but still dependents for income tax purposes may access the student's records without prior permission of the student.

2. A school official has a legitimate educational interest if the official needs to access or review student records to perform their professional responsibilities with regard to the student(s) whose records are being accessed. A school official is a person employed by the school district as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school district has contracted to perform a special task (such as an attorney, auditor, AEA employee, medical consultant, or therapist); or a parent or student serving on an official committee, such as disciplinary or grievance committee or student assistance team, or assisting another school official in performing his or her tasks. A school official may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of personally identifiable information from education records.

B. Release of Information Outside the School

1. To release student records to other school(s) in which the student intends to enroll or is already enrolled, the parents, legal guardian, or eligible student must be notified of the transfer and the kinds of information being released unless disclosure is initiated by the parents/legal guardians or eligible student or the school district annually notifies parents that the records will be sent automatically.
2. Student records may be released to official education and other government agencies only if allowed by state or federal law.
3. To release student records to other persons or agencies, signed and dated written consent is given by the parent, legal guardian, or eligible student. This consent form will state which records are released, to whom they are released, and the reason for the release. A copy of the specific records being released will be made available to the person signing the release form if requested.
4. Before furnishing student records in compliance with judicial orders or pursuant to any lawfully issued subpoena, the school district will make a reasonable attempt to notify the parents, legal guardian, or eligible student are notified in advance.
5. Student records may be shared with juvenile justice agencies with which the school district has an interagency agreement. This information is shared without prior parental consent. The agreement is a public document available for inspection.
6. Information in student records that has been designated as directory information may be shared if the parent, legal guardian, or eligible student has not opted out of the designation of that information as directory information.

Hearing Procedures

1. Upon parental or eligible request, the school district will hold a hearing regarding the content of a student's records, which the parent/legal guardian or eligible student believes to be inaccurate, misleading, or in violation of the privacy rights of the students.
2. The hearing will be held within a reasonable time after receipt of the parent/legal guardian or eligible student's request. The parent/legal guardian or eligible student will receive reasonable advance notice of date, time and place of hearing.
3. The hearing officer may be an employee of the school district so long as the employee does not have a direct interest in the outcome of the hearing.
